A mobile underground base builder powered by a 60-second 1v1 online duel, with power-ups in every match.

Lootava Games · BDATLAS LLC · lootava.com · 2026

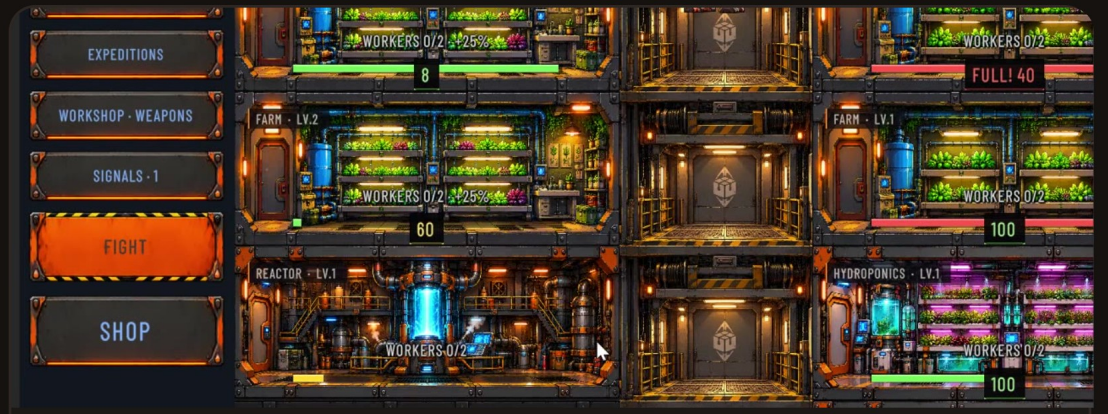

THE PITCH

Short matches. A home you keep for months.

CORE DUEL

60–90 second 1v1 online duels. Shoot the Core into the rival's Reactor. No health, no damage.

UNDERGROUND BASE

Dig floor by floor, put survivors to work, keep the power on. The slow loop that brings players back daily.

FIRST 30 SECONDS

Every player starts as Rex, with a story

Crossing the wasteland

A hatch in the sand

An empty base below

Something wakes in the depths

Rex is the guide

After the intro, Rex walks the player through the base step by step, then into a first tutorial duel. The interface opens up in stages.

CORE DUEL

Easy to read in one second, hard to master

Score a CORE STRIKE

Shots move only the Core. Most strikes in 60–90 s wins; a tie goes to LAST CHANCE.

Four weapons

Pistol, Shotgun, Sniper, Magnet. Each moves the Core its own way.

Safe for all ages

No one takes damage. Nothing to kill, nothing gory.

NEW: POWER-UPS

Kids asked for chaos. Now every duel has it.

FREEZE

The rival is frozen in ice for 2.5 seconds

BIG CORE

The Core grows 1.6× for 8 seconds

SHIELD

Your Reactor blocks one strike for 12 seconds

Shoot to win it Every hit fills the box's ring; the last shot takes it. Each shot is a choice: the Core, or the box?

Equal for everyone, never sold · in every match except the tutorial, online included

03

Create a room, share the code, or join theirs.

Never an empty queue A bot steps in after 50 seconds. Trophies from the same rival are capped per day.

THE UNDERGROUND BASE

A Fallout Shelter–style bunker that needs you

Drag, drop, collect

Drag survivors into rooms, tap the bubbles to collect.

Keep the lights on

Energy and Food run down while you are away; Rex says what to fix.

Newcomers at the hatch

Found survivors walk in across the desert and wait to be let in.
